French provisions governing the marketing requirements applicable to AIFs and UCITS

2 August 2021

This page contains information on the national legislative, regulations and administrative provisions governing the marketing requirements referred to in Article 5 (1) of Regulation (EU) 2019/1156 of the European Parliament and of the Council of 20 June 2019 on facilitating cross-border distribution of collective investment undertakings.

However, it does not mention all the provisions concerning the marketing of UCITS or AIFs which are already covered by the UCITS IV and AIFM directives (e.g., the rules relating to publication of the prospectus or the Key Investor Information Document already stipulated by the UCITS IV Directive), especially when it is the rules of the home country of the UCITS or the AIF manager that apply. This document also does not mention the provisions of, for example, contract law or consumer law which might apply.

I. Marketing requirements applicable for UCITS

Documents to be notified to the AMF prior to beginning of marketing

The information and documents to be disclosed before marketing UCITS, in accordance with Article 93 of Directive 2009/65/EC, are listed below in the section devoted to passport rules.
